PROFESSIONAL SUMMARY

Detail-oriented Software Engineering student with a specialized focus on the Software Development Life Cycle (SDLC) and Technical Documentation. Expert at bridging the gap between User Experience (UI/UX) and technical implementation to ensure high software quality. Proven ability in managing project workflows through Asana and creating comprehensive SRS documents, while maintaining a strong balance between functional excellence and intuitive design.

WORK EXPERIENCE

Software Engineering Intern (Design & Process)

April 2026 - Present

HexSoftwares · Remote

- Directing the end-to-end UI/UX design process for web and mobile applications, ensuring technical feasibility.
- Documenting user flows and high-fidelity prototypes to bridge the communication gap between design and development teams.
- Leading design reviews and gathering stakeholder feedback to refine project scope and usability standards.

Software Engineering Intern

Sep - Oct 2025

CodeAlpha · Remote

- Analyzed user journeys to engineer low and high-fidelity prototypes for complex systems.
- Defined visual hierarchies and layouts that align with technical requirements and user needs.
- Maintained detailed documentation for design iterations, ensuring a structured development approach.

PROJECTS

Spendo - Expense Tracker App

React · Expo · Figma

Role: Project Lead & UI/UX Designer

- Managed the full project lifecycle while designing a seamless financial tracking interface.
- Created detailed documentation for income/expense logic and conducted usability testing for UI components.

Eventify - Event Booking Website

React · HTML · CSS · Figma

Role: System Analyst & UI Designer

- Developed a responsive web interface and designed the complete user journey for event registration.
- Maintained a strict documentation log of feature updates and ensured cross-device UI consistency.

CafeGo - Coffee Ordering App

System Design · UI/UX

Role: Documentation & Experience Specialist

- Authored a comprehensive design system and component library to ensure consistency across the application.
- Mapped out complex user personas and technical workflows for the ordering process.

SKILLS

Design: UI/UX Design, Wireframing, Prototyping, User Research, Information Architecture

Management: Agile/Scrum, Sprint Planning, Asana Task Tracking, Team Coordination

Engineering: SRS Documentation, Software Quality Assurance (SQA), System Analysis, SDLC

Tools: Figma Proficient, MS Office Project/Visio, GitHub, HTML/CSS

EDUCATION

Bachelor of Science in Software Engineering

2026

GIFT University · Gujranwala, Pakistan

Intermediate (FSc Pre-Engineering)

2022

Punjab College · Okara, Pakistan
